---

Soft Skills	Programming Languages	Technologies
<ul style="list-style-type: none"><li>Teamwork</li><li>Problem-Solving</li></ul>	<ul style="list-style-type: none"><li>Java</li><li>HTML</li></ul>	<ul style="list-style-type: none"><li>MERN Stack(Basic)</li><li>AWS</li></ul>

## Certificates

---

- Problem Solving - Java (Hakerrank)
- Responsive Web Design (FreeCodeCamp)
- Data Structures and Algorithms using java (Infosys Springboard )

## Projects

---

### EduInnoHub - Empowering Students with Innovative Projects

- Stack Used: MongoDB, Express, React, Node.js (MERN).
- Features: Enables peer-to-peer communication and ensures project uniqueness using semantic analysis to check for plagiarism in project abstracts.
- Outcome: Established a platform to promote creativity, collaboration, and knowledge exchange among students, enhancing academic innovation and empowerment.

### Resume Builder Tool using AWS, HTML

- Stack Used: AWS, HTML.
- Features: Users input their resume details into a form, which is then seamlessly incorporated into an HTML template. This HTML template undergoes conversion into a refined PDF format. The finalized resume is securely stored on an Amazon S3 bucket for easy access.
- Outcome: Users can download their customized resumes in PDF format by clicking the download button.
